

**TECHNICAL SUMMARY
ADMINISTRATIVE AMENDMENT
Radioactive Material License No. Ro4100
Amendment No. 25**

Description of Application

- Applicant: Waste Control Specialists LLC (WCS)
Radioactive Material License (RML) No. Ro4100
Customer Number: CN600616890
Regulated Entity Number: RN101702439
- Action: Administrative Amendment of RML No. Ro4100 for low-level radioactive waste (LLRW) disposal and radioactive waste storage and processing.
- Location: WCS is located at 9998 State Highway 176 West, Andrews, Andrews County, Texas 79714, near the Texas-New Mexico state line, as described in the Technical Information section below.
- General: WCS currently holds a radioactive material license (RML No. Ro4100) for a LLRW land disposal facility and for a radioactive waste storage and processing facility.
- Request: WCS submitted an original administrative amendment application to the TCEQ on March 3, 2014 to allow waste that license conditions 197.C and 197.D require to be in a Type A or B cask to be in packaging that can be immediately placed into the appropriate cask to be compatible with Title 49 of the Code of Federal Regulations (49 CFR) and, at a minimum, meets the requirements of excepted packaging in 49 CFR. TCEQ offers this amendment as administrative.
- Authority: A TCEQ radioactive material license for the receipt and disposal of LLRW and for the storage and processing of radioactive waste is required. An amended license has been prepared in accordance with the applicable requirements of Title 30, Texas Administrative Code (TAC) Chapters 281, 305 and 336.

Administrative Information

At the time of this review, WCS did not have any delinquent fees.

The regulated entity, WCS, has a compliance history classification of satisfactory, with a rating of 2.21.

The WCS site has a compliance history classification of satisfactory, with a rating of 2.21.

Technical Information

This license amendment has been reviewed in accordance with applicable rules and statutes, including 30 TAC Chapter 336 (Radioactive Substance Rule) and Chapter 401 of the Texas Health and Safety Code. The review of the request included an assessment of the radiological and non-radiological effects of the license changes on the public health and safety.

Parts C and D of license condition 197 were modified to allow waste that requires a type A or B cask to be stored or be in transport between the Bin Storage Unit 1, Bin Storage Unit 2, LSA Storage Area, Container Storage Building, and Stabilization Building while in packages or containers that can immediately be placed inside the appropriate cask to comply with Title 49 of the CFR and at a minimum meets the requirements for excepted packaging in 49 CFR.
